# Audit Report

SCPAR (2024) NO. 0102

**To All shareholders of CUMI Abrasives And Ceramics Co.,Limited:**

## **1. Audit Opinions**

We have audited the financial statements of CUMI Abrasives And Ceramics Co.,Limited. (hereinafter referred to as the Company), including the balance sheet as of March 31, 2024, income statements and related notes to financial statements from April 1, 2023 to March 31, 2024.

In our opinion, the Company had prepared the attached financial statements in accordance with the Accounting Standards for Business Enterprises in all important aspects. The financial statements present fairly the financial position of the Company as of March 31, 2024 and the results of its opinion from April 1, 2023 to March 31, 2024.

## **2. Basis of forming the Audit Opinions**

We conducted our audit in accordance with the Auditing Standards for Chinese Certified Public Accountant. “The Certified Public Accountant’s responsibilities for audit of financial statements” in the audit report further elaborated our responsibilities in the criteria. According to the ethical codes of conduct of Chinese Certified Public Accountant, we are independent from the Company and implement other responsibilities in professional ethics. We believe the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **3. Other information**

The Company’s management level (hereinafter referred to as the “Management Level”) is responsible for all other information. Other information includes information covered in the Quarterly Report, but does not include financial statements and audit reports.

We neither cover other information for audit opinions of financial statements nor express any form of authentication conclusion for them.

Combining our audit of financial statements, we are responsible for other information. In this process, we consider whether the financial statements exist major inconsistency or seem to exist material misstatements with the situation known in the audit process.

Based on the work we execute, if we are sure that other information exists material misstatements, we shall report the fact. In this respect, we have no any matters that need to be reported.

#### **4. Responsibility of the Management Level and the Governance Level to the Financial Statements**

The Management Level is responsible for preparing financial statements in accordance with regulations of Accounting Standards for Enterprises and making fair presentation; designing, implementing and maintaining necessary internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error;

In the preparation of financial statements, the Management Level is responsible for evaluating the sustainable operation ability of the Company, disclosing the matters relevant to sustainable operation(if applicable) and applying going concern assumption unless it plans to liquidate and cease the Company or doesn't have other practical choices.

The Governance Level is responsible for governing the process of financial statements in the Company.

#### **5. Responsibility of the Certified Public Accountant for audit of financial statements**

Our goal is to obtain reasonable assurance as to whether the whole financial statements do not exist material misstatement caused due to fraud or errors and issue the audit report containing audit opinions. Reasonable assurance is the high level assurance, but does not guarantee that the material misstatement of the audit executed according to auditing standard can always be found. Misstatements may be caused by fraud or error. If the separate or summarized reasonable expected misstatements may influence the economic policies the user makes according to the financial statements, it shall be deemed that misstatements are major.

In the process of audit executed according to the auditing standard, we adopt the vocational judgment and keep the vocational doubt. Meanwhile, we execute the work as

follow:

I . Identify and assess the risks of material misstatement of financial statements due to fraud or error, design and implement audit procedures to address the risks, and obtain adequate and appropriate audit evidence as a basis for expressing audit opinion. As fraud may involve collusion, forgery, deliberate omission or be above internal control, the risks of being unable to discover material misstatement caused by fraud are higher than those caused by mistakes.

II . Consider internal control relevant to the preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control.

III . Evaluate the appropriateness of accounting policies used, the reasonableness of accounting estimates and relevant disclosure made by the management level.

IV . Conclude the appropriateness of going concern assumptions used by the management level. Meanwhile, according to the audit basis obtained, we make the conclusion whether the matters or situations that may lead to producing major concerns for the sustainable operation ability of the Company exist material uncertainty. If we make the conclusion that they exist material uncertainty, the auditing standard requires us to inform the user of the financial statements relevant disclosure in the audit report; if the disclosure is insufficient, we shall express qualified opinions. Our conclusions are based on the information obtained as of the date of the audit report. However, the matters or situations in the future may lead to the Company's unable to go concern.

V . Evaluate the overall presentation, structure and contents(including disclosure) of the financial statements and whether the financial statements fairly reflect relevant transaction and matters.

We communicate with the Governance Level on the planned audit scope, time schedule and significant audit finding

The registered capital is RMB 100,649,172.00 and the legal representative is Malik Vipin. The company’s category is a joint venture. The company’s domicile is East Side of East Ring Rd, and South Side of Guihua Rd, Yanjiao Development Zone, Sanhe City. Mar.10, 2012, CARBORUNDUM UNIVERSAL LIMITED transferred all shares to CUMI INTERNATIONAL LIMITED. The subscribed registered capital and contribution proportion is as follows:

Investors	Subscribed registered capital(RMB)	Contribution proportion %
CUMI INTERNATIONAL LIMITED	100,649,172.00	100.00
Total	100,649,172.00	100.00

Business: The Company is classified to be industry.

Business scope: manufacture of bonded abrasives, coated abrasives, non-woven abrasive, super-hard abrasive; industrial ceramics products, fireproofing materials and abrasives; sales of the company’s own produced products with after-sales technical service. Import and export abrasives and other similar or related products, included whole sale, commission agent(Except for auction) and provide the related ancillary services; import and export steel products, grinding equipment and attachment.( The above scope does not involve the management of state-run trade goods; according to the relevant provisions of the state apply for involved quota, license management of goods)

## **II. Make-up basis for the financial statements**

The company takes continuous operation as make-up basis.

## **III. Notes for accounting policies and estimates**

### **(1) Existing accounting standard and system of the company**

The company implements “Accounting Standards for Business”, “Business Accounting System” and relevant supplementary provisions issued by the Ministry of Finance.

### **(2) Accounting period**

This period of accounting is for April 1, 2023 to March 31, 2024.

### **(3) Recording currency**

Company takes RMB as recording currency.

### **(4) Bookkeeping basis and valuation principle**

The company takes debit-credit bookkeeping basis and accrual basis and historic cost method as the main method.

### **(5) Conversion method of foreign currency business**

1. The company records the economic business involving foreign currency in RMB in terms of exchange rate released by People’s Bank of China; and converses the balance of various foreign accounts into RMB according to the exchange rate. The difference between the conversed amount and the book amount is confirmed to be exchange gain or loss.

2. Treatment method for exchange gain or loss: The exchange gain or loss during the preparation period is calculated into long-term deferred expense, and calculated into gain or loss of the current month after production since the current month of the production. The exchange gain or loss produced by the special foreign borrowings related to long-term assets should be dealt according to the handling principle of borrowings. Except the above situations, the exchange gain or loss is calculated in current financial expense.

3. The calculation for foreign financial statements adopts current exchange method. It means that the owner’s equity items (excluding “undistributed profit” items) are calculated in historical exchange rate and the assets, liability items in the foreign financial statements are calculated according to market exchange rate at the end of the term, income, expense items are calculated according to average exchange rate during the term. The difference produced in the foreign financial statements is reflected in “calculated difference in foreign financial statements” under the item of “undistributed profit”.

### **(6) Standard of confirmation of cash and cash equivalents**

Cash refers to the cash in the company’s stock and deposit that could be paid anytime.

The cash equivalents refer to short-term investment in a short period (generally mature in three months from the date of purchase), strong in liquidity, easy to be converted into known amount in cash and less value change risk.

### **(7) Receivables**

1. Confirmation standard of bad debt: the unrecoverable receivables due to reasons that the debtor is

bankrupt after liquidation according to law; or the debtor is dead, there is no heritage to pay off and also there is no person to assume the duty; or the debtor does not perform the payment duty over three years and it has been listed as bad debt with the approval of shareholder's meeting or board of director; and other depreciated claim that is assessed to be unrecoverable could be terminated the confirmation.

2. Withdrawal method and proportion of bad debt provision:

The company adopts direct write-off method to handle bad debt.

#### (8) Inventories

1. Classification of inventories: include raw materials, sent products, low value consumables, consigned processing materials, Materials in transit, packages, finished products, unfinished products, and trading products.

2 Valuation method of inventory: planned in actual cost, and valued in weighted average method in delivery.

The amortization method of low value consumables: The Company adopts one-time amortized method. The received low value consumables from investment are amortized within 12 months.

3. The inventory system adopts the field checking method.

#### (9) Fixed assets

1. The fixed assets refer to the tangible assets owned for producing the goods, rendering the labor, leasing or operation managing with service life exceeding one fiscal year. The objects not belonging to the important equipment for production with unit value of over RMB 2000 and use years exceeding 2 years are also belonged into fixed assets.

2. Fixed assets price

The purchased fixed assets are calculated at the actual cost in purchase.

The costs of the fixed assets from non-cash assets exchange, debt reorganization, enterprise combination and financing lease are confirmed according to "Accounting Standards for Business---non-cash assets exchange", "Accounting Standards for Business---debt reorganization" and "Accounting Standards for Business--lease".

3. The fixed assets adopt the straight line basis.

The fixed assets depreciation is calculated in average year method. The estimated use years, predicated net residual value and annual depreciation rate of various fixed assets are as follows:

Category of fixed assets	Estimated economic use years (year)	Predicated residual value rate (%)	Annual depreciation rate (%)
Housing building	30	10	3
Machine equipment	10	10	9
Transportation equipment	5	10	18
Electronic equipment and Others	5	10	18

#### (10) Intangible assets

1 Confirmation and original price of intangible assets

Confirmation standard of intangible assets:

(1) the recognizable non-cash assets in kind the company has or controls.

(2) The predicated future economic benefit related to the assets may flow in the company.

(3) The cost of the asset could be reliably measured.

The intangible assets include land use right and software.

The intangible assets are originally calculated with the cost.

2. Amortization of intangible assets: The land use right is amortized in 586 months according to straight line method and the software is averagely amortized in 36 months according to straight line method.

The intangible assets of our company have been fully disposed.

#### **(11) Income confirmation principles**

1. The income for sales products could be confirmed under satisfying the following conditions:

① The Company has transferred the principal risk and remuneration of the product ownership into purchaser.

② The Company does not retain the continuous management right connected to the ownership nor implement control on the sold products.

③ The economic benefits related to the transaction flow into the company.

④ The related income and cost could be reliably measured.

2. Income confirmation on rendering labor

① the income of the labor that is began and completed within the same fiscal year is confirmed at the completion time.

② If the labor begins and completes in different years, under the condition that the results of rendered labor could be reliably measured, the income is confirmed according to the completion percentage method at the date of balance sheet; under the condition that the results of rendered labor could not be reliably measured, the income is confirmed according to the labor cost that has occurred and could be predictably compensated at the date of balance sheet;

3. Income confirmation for transfer assets

① The economic benefit related to the transaction may flow in the company.

② The income amount could be reliably measured.

(When writing the policy for this part, please reveal according to industry feature and actual principles of income confirmation.)

#### **(12) Accounting treatment method for income tax**

1. The accounting treatment method for income tax: Taxes payable method

2. Income tax settlement method

(1) Collection period for enterprise income tax: in quarterly requisitions in advance and annual settlement method

(2) Income tax settlement method: general application and application according to rates to taxable income.

(3) Income tax settlement scope: independent tax payment.
